

Subject - the things in purses; the best purse of all: and who do I keep in my heart purse? Is it my favorite watch? A little rubber car? No! Turn the page and see the mirror - It's you! A sweet little book to share with someone you love... (a big someone or a little someone!)

2nd Edition -

When my friend Terri's grandmother left on her trip heavenward to join her husband, her grandchildren decided to tuck photos of themselves into her pink satin bag. (Grandma was never without her purse...) "And sweet 'n' low!" Remembered one of the grandkids. Grandma never left home without it! And so they filled her little evening purse with mementos of themselves.

And what else is a purse for, but for keeping little treasures safe and secure. Just like a little purse our hearts are purses too, for keeping loved ones in.

The Heart Purse was written so we might have the opportunity to tell someone this side of heaven how much we value their being. Mixed in with stamps and keys and coins, we keep the most precious things on earth...our loved ones...

And so, I commend to you The Heart Purse

My Jesus: A Small Christmas Miracle

This is a little story that came to me one evening as moonlight splashed across my living room floor. It's a short story about a woman who feels like prayer doesn't really seem to work anymore and her Bible, once loved, now seems empty to her. Enter a Guest who reminds her of Who has missed her prayers and Who will always be there for her. One friend of mine refers to the book as Pocket sized Inspiration...
